SLYDINI: THE LECTURE

THE DEFINITIVE SLYDINI EXPERIENCE

Celebrate the magic, genius and humor of Tony Slydini. After 35 years, Slydini's protégé, Bill Wisch, is commemorating his 74 city, Slydini book tour, presented to thousands of magicians from 1976 through 1979. This is a fully revised and updated, lecture/tribute that will show you the Magic of Slydini like you've never seen it before.

Features unknown Slydini magic including:

"The Paper Balls to the Box" -The controversial ending finally explained and justified!

"The Chicago Loop Mystery" -This still completely fools as it did the Chicago magicians that saw it, and Slydini never told them how it worked! A great story with this!

"The Flight of the Paper Balls" -The real secret!

"The Paper Balls, Box and Wand" -A new stage/platform handling of the classic, Paper Balls to the Box!

"One Hand Unlink" -A ring technique like never before. Gives the famous Slydini Ring Routine a "melt-through" quality...rings totally examinable and you won't believe it!

plus: rarely seen Slydini classics ("The Mongolian Clock", "Helicopter Card", "Strolling, Slydini Knots Routine", etc.) - fascinating stories - secrets - lesson audio-clips - inspiring surprises . . .and much, much more!

TONY SLYDINI (1900-1991) was arguably one of the two finest, sleight of hand artists and teachers of the art of magic in the twentieth century. Among his students were Doug Henning, Mohammed Ali, Dick Cavett and other celebrities, as well as many hundreds, if not thousands of students throughout the world. Slydini only selected one protégé and that is Bill Wisch.

Bill Wisch is the only student ever authorized by Slydini to lecture his magic, which he did to thousands of magicians in 74 cities throughout the United States and Canada from 1976 to 1979. Slydini asked Bill, and personally sponsored him in writing*, to take his place and introduce the double volume book sets, written by Karl Fulves, "The Best of Slydini and More" and "The Magical World of Slydini", both now classics of magical literature.

At each lecture, Bill demonstrated all of the Slydini classics, and also took audience requests for many of Slydini's less familiar effects and routines. Since 1975, he has presented over 400 lectures to magic clubs and organizations throughout North America.

"To my knowledge, Bill Wisch is the only Slydini student to conceptualize and internalize Slydini's magic to fit their own style." - **Karl Fulves**

"Bill Wisch is the only student that Slydini recommended to lecture his work. I heard Slydini say it many times." (Slydini's long-time friend and final student) -**Artie Miller**
